

## **Welcome to the LSL insurance process.**

You must be a registered player on My Club Finance before your injury.  
If you get injured, you can go to A&E for immediate treatment or you can go to one of our physio's.

You must get an incident report form filled out by your club official and have it sent to [lsinsurance1896@gmail.com](mailto:lsinsurance1896@gmail.com)

**Please quote Leinster Senior League assessment when you contact the physio and bring your LSL membership number with you.** (This number was on an email you received when you joined the group on My Club Finance).

You will pay the €30 to the physio for the assessment, and they will determine what you should do next.

When the assessment is complete contact us at [lsinsurance1896@gmail.com](mailto:lsinsurance1896@gmail.com) and we will arrange a claim form and advise on further action.

If the physio recommends a visit to the Beacon your appointment will be made by the physio and the Beacon will confirm the appointment with you.

You must pay the first €100 (This is the excess on the policy) to the Beacon and all other charges (MRI, Operation etc) up to 6.5K will be covered under the policy.

If you came from an A&E, you will already have paid them €100 so you do not have to pay it again. Remember to get a referral letter from A&E for Dr Alan Byrne at the Beacon. Just let them know, that is where you are covered for specialist treatment.

You can then contact us, and we will arrange an appointment. Remember to keep all receipts to speed up your claim.

### **You cannot attend the Beacon without a claim form**

All the above is a quick guide, for further details please refer to the LSL Insurance Handbook.

Handbook and forms are attached to this email.
